

UNIVERSAL UNWINDING STAND #2231

the universal guy wire unwinding stand is adjustable and can take coils between 22 and 31 inches (exterior of the coil).

The universal guy wire unwinding stand is the result of more than 25 years of experience with our other **ergonomic** guy wire unwinding stand. It is **economical** and **very reliable** thanks to the material used and the great manufacturing. Our products have been tested by many companies. No problems reported since the beginning in 1991. Our products have been patented and are certified by several companies. They are **known** to be an ideal and **economic** solution when it comes to coil manipulation. The universal guy wire unwinding stand is very safe to use. It eliminates any excessive effort while loading 100 pound (45Kg) coil. The four adjustable hooks prevent any risky unforeseen unwinding. The universal guy wire unwinding stand is **economical**. The ball bearing system makes it easy to rewind excess wire, to create new coils from old ones and to remove them for future use.

The universal guy wire unwinding stand is **versatile** and can be installed where you want : in the truck or the trailer, it can be installed inside or outside, to the right or left, on the floor or the wall and upright or upside down. It is made of **robust** and **weatherproof** materials.
