

## ERGONOMIC TRIPLEX UNWINDING STAND

The triplex unwinding stand was also designed in collaboration with linemen.  
The result is **simple** and **ergonomic** equipment.

The triplex unwinding stand is **safe** :

It eliminates any excessive effort while loading 100 pound (45Kg) coil with remarkable simplicity.

You **don't have any weight to lift**.

The cover eliminates any risk of unforeseen and dangerous unwinding.

The ball bearing system makes it easy and **economical** to rewind excess wire.

It's design and the material used, make this stand **light, robust and reliable**.

Can be used with many cables :

TRIPLEX ( #2, #2/O ET #4/0), QUADRUPLEX (#2, 2/0 ET #4/0) AND 477 ALUMINIUM INSULATED.
